

ENCYCLOPEDIA GEOTECHNICA

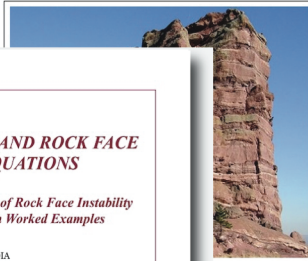

announces its new range of cutting edge
geotechnical and geological books.

Inspect their contents in detail at: encyclogeo.com

ROCK SLOPE AND ROCK FACE ENGINEERING

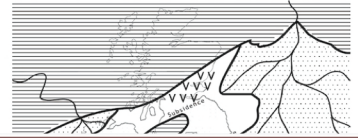

*The Geology and Mathematics of Rock Face Instability
and Rockfall Control Design*

750 Million Years in 27 Maps

*Maps of the Past Geology, Geography,
Coastlines, and Climate of the
British Isles and Ireland, and Earth's tectonic
plate movements over the last 750 million years.*

Written by
ENCYCLOPEDIA
GEOTECHNICA

ESSENTIAL ROCK SLOPE AND ROCK FACE MATHEMATICS EQUATIONS

*The Static and Dynamic Mathematics of Rock Face Instability
and Rockfall Control Design with Worked Examples*

Written by
ENCYCLOPEDIA
GEOTECHNICA

Tectonic Plates

*How the World Changed
An Elementary Introduction to
World-Wide Tectonic Plate Migrations
Million Years*

Written by
ENCYCLOPEDIA
GEOTECHNICA

1/ of the world in 14 maps.
every country of the world

STEREONET PROJECTIONS FOR GEOLOGICAL DISCONTINUITY PLOTTING

*The Field Acquisition and Interpretation of
Bedding and Dip Discontinuities Using Stereonets*

Written by
ENCYCLOPEDIA
GEOTECHNICA

For Geologists and Civil Engineers

*Prestige Edition
with colour photographs*

THE ESSENTIAL ELEMENTS OF GEOLOGICAL FIELD MAPPING

for Amateur, Undergraduate, and Professional U.K. Geologists
